Welcome to Animal Planet 2013

For over a decade Animal Planet has been the only real animal brand with international reach and appeal. Animal Planet captures the innate drama and compelling characters of the wild and brings them to life, encouraging children to learn and adults to consider the world around them. Truly a family brand that encapsulates today's views in society and the ever growing demand that we treasure the world around us and keep it safe for the next generation.

This is our first range launched under the Animal Planet License and we are proud to partner with such a prestigious and highly respected brand. Our aim for this and the coming years is to focus on the core values that make Animal Planet such a globally loved brand.

Encourage learning, respect for the environment, understanding nature and above all making people happy!

Welcome to the 2013 Animal Planet range of animals.

...the fun starts here

We all live on the same planet, but Animal Planet takes you to a different world.

Immerse yourself in the diverse world of the animal kingdom with Animal Planet and get up close and personal with the animals we share our world with. Experience the onslaught of adrenaline to the burst of joy, from the tremor of fear to the fit of giggles, from the plunge into sadness to the rush of passion. Animal Planet offers a raw, instinctive and immersive experience that taps into the primal instincts that drive us all with captivating stories that resonate with the human condition – allowing us to feel before we think. Ignite your imagination with Animal Planet and allow yourself to experience a different world.

Farm world

DID YOU KNOW?

The Fjord Horse or Norwegian Fjord horse to give it its correct title is one of the oldest and purest horse breeds in the world. Native to Norway the Fjord Horse is believed to have been first domesticated some 4,000 years ago and was used by the Vikings as War Mounts. Prized for its good temperament, character and strength this beautiful horse is one of the national symbols of Norway.

Prehistoric world

DID YOU KNOW?

Brontotherium (Thunder Beast) is an extinct mammal, part of a group of rhinoceros-like browsers thought to be related to Horses. Native to North America during the late Eocene period (38-34 million years ago), this huge mammal stood 2.5m (8 feet) tall at the shoulders and measured some 5m (14 feet) in length. Their diet consisted of soft plant stems and leaves and scientists have put their weight at anywhere between 2,100 - 5,000kgs (4,600 - 11,000lbs).

Natural world woodland

DID YOU KNOW?

The White Tailed Deer (*Odocoileus virginianus*), also known as the Virginia Deer, is a medium sized deer native to the United States, Canada, Mexico, Central and South America. Although generally thought to be a forest species, whitetails are very adaptable and can be found in a variety of habitats including savannah woodlands and open prairies. The Males (Bucks) can weigh between 40 - 130kgs (130 - 290lbs) whilst the females (Does) weigh between 40 - 90kgs (85 - 200lbs), their diet consists of acorns, cacti, grasses, shoots and other vegetation.

Innovation & Reliability

We believe establishing long-term relationships is key to the future of our business. To build the very best reputation for innovation and reliability we focus on the quality of our products and services, and the excellent customer care we work hard to provide. We take heed of and value all feedback.

Craft & Expertise

We craft each animal in the Animal Planet range over a period of many months, from the initial design and sculpting through to the final processes of colouration and painting. We expertly research every detail to recreate as close to nature as possible the animals and creatures children know and love.

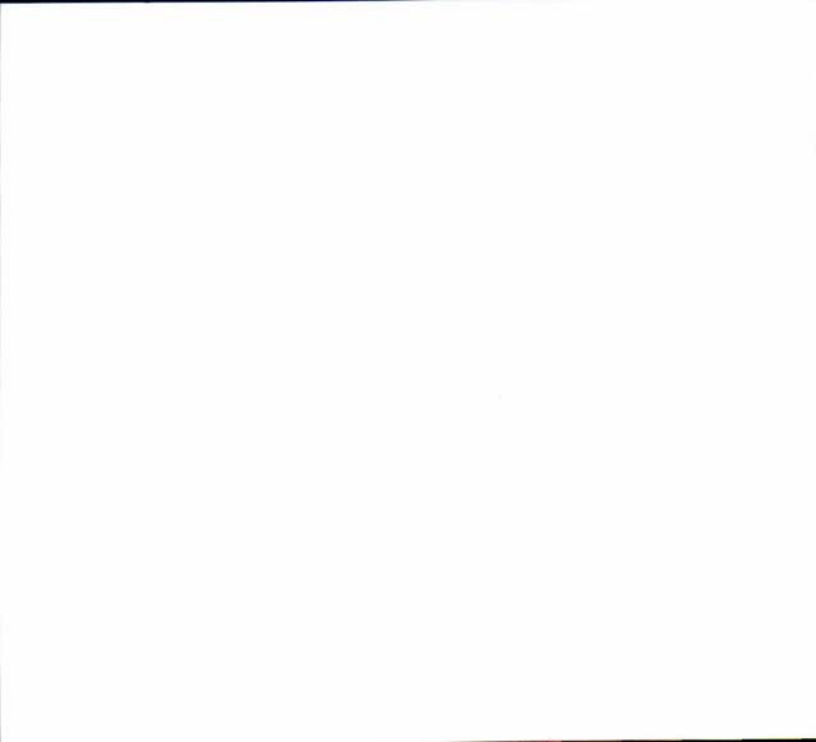

Safety & Standards

The safety of children is of paramount importance to us in developing our products. Every animal in the Animal Planet range is rigorously tested and must fulfil all current worldwide safety standards before being introduced to the market.

European standards: EN71 Part 1, 2, & 3, EN71 Part 9, DIN53160 (German standard), Cadmium & Non-Phthalate.
US Standards: ASTM F963-11, CPSIA, Lead in surface coatings, Lead in substrate, Non-Phthalate, US Public Law 110-314, Assembly Bill of California AB1108 & Cal Prop 65.
China: CCC
