WELCOME TO MOJO-ANIMAL PLANET 2017

The Animal Planet range for 2017 is the best we have ever showcased.

A tremendous amount of work over the past year has helped to produce our finest product portfolio to date.

Without doubt 2017 sees the finest range of figures we have ever produced and with a quality that matches and in a lot of instances surpasses the best that are currently available.

Our aim has always been to achieve the accolade of being the finest animal figurine producer in the world and whilst we wouldn't go as far as to say that at this time, what we would say is that we are on the right track.

Judge for yourself, our latest 2017 figures include a Giant Tortoise, Hunting T-Rex and Shire Horse that surpass both in terms of quality and style most if not all others available in the market.

Birds and Sealife also feature highly for the coming year with 6 new Sealife models being produced in Portugal.

Whilst new additions are always the main feature for any company we have also revamped many of our older models, in most cases the results surprised even ourselves. Check out the many items in our catalogue marked "New Colour 2017" compare them with previous/older versions and make your own decision.

We are rightly proud of our 2017 range and it is largely due to a team of people that are passionate about what they do and how well they can do it. Their dedication, hard work and true belief in what we are trying to achieve is borne out in the product range for the coming year. Thank you to the Mojo team you don't see, every team member has worked extremely hard over the past year and deserves a mention.

Single item packaging

Modular packaging design with an open platform style showcases the Animal Planet branding element to best effect whilst preserving the products quality and its tactile nature. Easier to handle in-store, avoiding problematic messy display areas and offering a gift packed option. Animal Planet Displays and in-store POS material will complement the range ensuring a strong shelf presence.

Our Goal

- To create the finest Quality products available
- Offer first Class customer service
- To be Customer focused, whether Business or Consumer
- Build Long Term Partnerships based on Quality, Trust and Confidence

Craft and expertise

Designed in the UK our products are made with passion. Passion for design, passion for realism and a passion for quality. Each figure is expertly researched prior to its manufacture.

The sculpting and coloration processes can take many months and even then, some do not make it into production. Once in production we may refine a model many times until we feel it reaches a level of quality with which we are happy.

Mojo a passion for perfection!

Safety and standards

Each product in the Mojo range is rigorously tested to a wide range of international standards. This is an ongoing process with every model in the range undergoing Safety testing on an annual basis.

We value safety above all else.
