Llamas live as a family and they do take care of each other. If one notices a strange noise or feels threatened, an alarm call is sent out and all others become alert. They will often hum to each other as a form of communication.

Our Goal

To create the finest quality products available.
To offer First Class Customer Service
To be customer focused, whether Business or Consumer.
To build long term partnerships based on Quality, Trust and Confidence.

Craft and Expertise

Designed in the UK, our products are made with passion. Passion for design, passion for realism, and a passion for quality. Each figure is expertly researched prior to its manufacture.

The sculpting and coloration processes can take many months and even then, some do not make it into production. Once in production, we may refine a model many times until we feel it reaches a level of quality with which we are happy.

Mojo, a passion for perfection!

Safety and Standards
